## FULL STACK WEB DEVELOPER

### SUMMARY

Full Stack Web Developer with a background in Mechanical Engineering and experience in computer hardware. I always love coding and often self taught many different languages using free resources. I wanted to really get a full understanding of the software development and combine it with my hardware background. Hence, I completed my Full Stack Web Development Diploma through Lighthouse Labs. I enjoy creating products that are creative, error free and have amazing features for customers.

### SKILLS

<b>LANGUAGES</b>	JavaScript, TypeScript, HTML, CSS, Ruby, SQL
<b>FRAMEWORKS/LIBRARIES</b>	ReactJS, Redux, NodeJS, Express, Rails, JQuery, Ajax, Bootstrap, SASS, Git, Redux-Toolkit, OAuth/JWT
<b>TEST FRAMEWORKS</b>	Mocha & Chai, Jest, Storybook, Cypress
<b>DATABASES</b>	PostgreSQL, MongoDB
<b>COMPUTER HARDWARE</b>	Install/Configure/Test, Diagnose/troubleshoot hardware issues

### PROJECTS

Mar. 2022 to Mar. 2022	<b>DOTCOIN</b> A fully functional cryptocurrency application that contains current market stats and news, along with cryptocurrencies' data and price chart. Tech Stack: React, Redux-Toolkit, RapidAPI
Feb. 2022 to Feb. 2022	<b>Join A Side</b> A casual community app where users post a debatable topic, and then vote/comment on one side to see the results in a given time Tech Stack: Ruby on Rails, PostgreSQL, React, Tailwind
Mar. 2022 to Mar. 2022	<b>Movie Source</b> A fully responsive movie application that is based on The Movie Database API. It comes with the most popular movies in home page and a responsive search-bar. User is able to search his/her favorite movie and get all information about it. Tech Stack: TypeScript, React
Jan. 2022 to Jan. 2022	<b>QuizApp</b> An app that user can take/create a quiz, share the result link, and make the created quiz public or private. Tech Stack: Javascript, HTML, EJS, NodeJS, PostgreSQL
Nov. 2021 to Dec. 2021	<b>TinyApp</b> A full stack web application built with Node and Express that allows users to shorten long URLs. Tech Stack: Javascript, Express, NodeJS

### EDUCATION

Nov. 2021 to Feb. 2022	<b>Lighthouse Labs</b> Diploma Full Stack Web Development
Sept. 2020 to Dec. 2020	<b>Coursera</b> Certificate Java Programming And Software Engineering Fundamentals Specialization
Mar. 2020 to June 2020	<b>Cisco Systems</b> Certificate CCNA
2001 to 2005	<b>KNTU University</b> Bachelor Mechanical Engineering

### EXPERIENCE

Mar. 2016 to Nov. 2021	<b>Rail Operator</b> <b>Autoport Ltd · Toronto, ON</b> <ul style="list-style-type: none"><li>- Split and connected more than 50 railcars per day, much more than daily target</li><li>- Handled almost 100 Brand-new vehicles and made it ready for clients</li><li>- Done everything safe and in timely fashion without any accident/injury</li></ul>
Jan. 2010 to July 2015	<b>Computer Hardware Specialist</b> <b>Rayan Rasaneh · Tehran, Iran</b> <ul style="list-style-type: none"><li>- Was in charge of installation and configuration of more than 6 to 8 computer systems per day</li><li>- Tested and debugged more than 10 computers per day before handing to clients</li><li>- Troubleshoot hardware issues for clients</li></ul>
